# **MISCELLANY**

## **Notes from the Past and the Present**

This series of bi-monthly publications has been produced since 1994, and we are proud that the series is still running twenty six years later with around 160 editions now having been published.

Usually consisting of twenty-four pages, most of the articles are freshly typed reproductions of items published in several trade publications, with some from as far back as the late eighteen-hundreds (1884, etc.).

All the reproduced articles have received the approval of the copyright holders.

**In order to receive the next five editions of Miscellany please complete the subscription form on the reverse of this page**
